Character Description/Portrait

A melee fighter who can heal other nearby allies and wind up for an extra powerful strike. The Zealot's battle plan is simple: get close to foes and hit them as hard as they can, supporting allies with healing as needed.

The Crushing Zeal Talent allows them to replace their weak Finesse with their strong Heart for their offense. The Mend and Rend Lesson allows them to strengthen their healing after attacks and strengthen their attacks after healing.

When you start the game, choose between two Abilities: Protector's Presence or Sweeping Strike.

Protector's Presence gives you Taunt, which forces foes to attack you instead of your allies. This Ability has an Upkeep, costing 1 MP every Round Start. It lasts as long as you choose to pay the Upkeep.

Sweeping Strike is a straightforward melee attack that hits up to three enemies.

Personality Traits

Aside from combat, the Zealot is comfortable in social situations. Their high Diplomacy Skill means they get along with people well. High Intimidation allows them to direct people with their intense personality. Their Empathy means Zealots are good at telling when people are lying to them.

With the Sixth Sense Utility, they can detect the presence or meddling of supernatural forces: angelic, demonic, undead, fey, eldritch, or anything between.
